

CRATES CR-06

These crates are durable and lightweight. They are made of HDPE, designed for storing and transporting dates, fruits, vegetables, baked goods and poultry. They feature ventilation holes for air circulation, which helps preserve products and reduce spoilage. Their stackable design enhances storage efficiency in warehouses and during transit.

DETAILS:		ACCESSORIES ON REQUEST	
Dimensions (L x W x H) mm	580 X 379 X 211	Customized Color	
Volume (Liter)	32.87	Logo (Printed / Engraved)	
Standard Color			

FEATURES:

- Extra base holes for wet goods
- Easy stacking and nesting
- Reduce transport & stock costs
- Compatible with standard pallet size (1200x1000 mm)

- The values indicated are approximate and are based on practical experience and ISO 86111-, evenly distributed load over pallet surface, at ambient temperature (23 C) for a specific time. Different load conditions produce different values that have to be checked at the customer's request. Any deterioration or breakage in the pallet may vary these results.
 - Due to the characteristics of plastic materials and manufacturing process, the dimensions and the weight of the pallets may present certain tolerances.
 - The specification can be affected in case of alteration of the product with parts and / or materials different from those approved by the RePal quality department.
 - RePal reserves the right to modify any information herein indicated without prior notice.
 - Any warranty, specification or liability on the part of RePal will be terminated in case of modification of the product with spare parts not supplied.
