### RECOMMENDATIONS FOR USE:

- ✓ Do not stack more than 30 pallets, which is equivalent to a height of 4.65 m when empty.
- ✓ Once stacked in height check that they are properly fitted.

- The values indicated are approximate and are based on practical experience and ISO 86111-, evenly distributed load over pallet surface, at ambient temperature (23 C) for a specific time. Different load conditions produce different values that have to be checked at the customer's request. Any deterioration or breakage in the pallet may vary these results.  
 - Due to the characteristics of plastic materials and manufacturing process, the dimensions and the weight of the pallets may present certain tolerances.  
 - The specification can be affected in case of alteration of the product with parts and / or materials different from those approved by the RePal quality department.  
 - RePal reserves the right to modify any information herein indicated without prior notice.  
 - Any warranty, specification or liability on the part of RePal will be terminated in case of modification of the product with spare parts not supplied.
