

## Box NP-02

Plastic Nestable Containers are designed to improve handling processes and reduce storage costs. They can be stacked by lid or on pull-out arms. When empty, they can be nested, allowing a significant reduction in volume.

DETAILS:		ACCESSORIES ON REQUEST	
Dimensions (L x W x H) mm	600 X 400 X 330	Customized Color	
Volume (Liter)	53	Logo (Printed)	
Standard Color			

### FEATURES:

- Stackable folded or unfolded.
- Strong & Lightweight.
- Saves valuable storage space when not in use.
- Euro dimensions for effective palletization.

- The values indicated are approximate and are based on practical experience and ISO 86111-, evenly distributed load over pallet surface, at ambient temperature (23 C) for a specific time. Different load conditions produce different values that have to be checked at the customer's request. Any deterioration or breakage in the pallet may vary these results.  
 - Due to the characteristics of plastic materials and manufacturing process, the dimensions and the weight of the pallets may present certain tolerances.  
 - The specification can be affected in case of alteration of the product with parts and / or materials different from those approved by the RePal quality department.  
 - RePal reserves the right to modify any information herein indicated without prior notice.  
 - Any warranty, specification or liability on the part of RePal will be terminated in case of modification of the product with spare parts not supplied.
