

CONTAINERS FPC-11

RePal foldable pallet container is available with volume of 656 liters. In the folded state, a space saving of up to 60% can be achieved, which guarantees cost saving transport and storage. It can be handled from 4 sides and of course easy to stack, both in the unfolded and folded state. Due to stable walls a high load capacity and an optimum transport safety of the load is guaranteed. Very useful for low density items like textiles, retail supply chain and clothing.

- The values indicated are approximate and are based on practical experience and ISO 8611-, evenly distributed load over pallet surface, at ambient temperature (23 C) for a specific time. Different load conditions produce different values that have to be checked at the customer's request. Any deterioration or breakage in the pallet may vary these results.
 - Due to the characteristics of plastic materials and manufacturing process, the dimensions and the weight of the pallets may present certain tolerances.
 - The specification can be affected in case of alteration of the product with parts and / or materials different from those approved by the RePal quality department.
 - RePal reserves the right to modify any information herein indicated without prior notice.
 - Any warranty, specification or liability on the part of RePal will be terminated in case of modification of the product with spare parts not supplied.
